Multi-Level Water Play Structures

MiniAPS · APS · Themed Designs

SINCE 1996 · ISTANBUL

MULTI-LEVEL WATER PLAY

One Structure. Endless Adventures.

Our multi-level water play structures turn a shallow pool into a world of adventure. Slides, tipping buckets, water wheels, spray arches and interactive features come together in one landmark that keeps children playing for hours.

Every structure is designed, engineered and manufactured in our own factory in Istanbul, and can be tailored in size, colour and theme to fit your site and your story.

WHY MULTI-LEVEL PLAY

More Play in Every Square Metre

01

Family magnet

A signature attraction that makes your pool the first stop for families and the centre of every photo.

02

High capacity

Multiple levels, slides and play points keep large groups of children active at the same time.

03

Safe by design

Enclosed platforms, safety fencing and slide exits engineered for shallow-water play.

04

Fully customisable

Choose colours, slide layouts, water features and theming, from jungle to ocean or your own brand.

05

Built to last

Galvanised and painted steel structure and fibreglass slides produced in our own facility.

06

Turnkey delivery

Design, manufacturing, filtration, installation and after-sales support from a single partner.

THE RANGE

TURNKEY SOLUTION

From First Sketch to Opening Day

We take care of the whole journey: design, engineering, manufacturing, filtration, installation and support. One partner, one point of responsibility.

01

DESIGN

Concept, layout and 3D visuals tailored to your site and theme.

02

ENGINEER

Structural, hydraulic and safety engineering by our own team.

03

MANUFACTURE

Steel structure, slides and play elements produced in our factory.

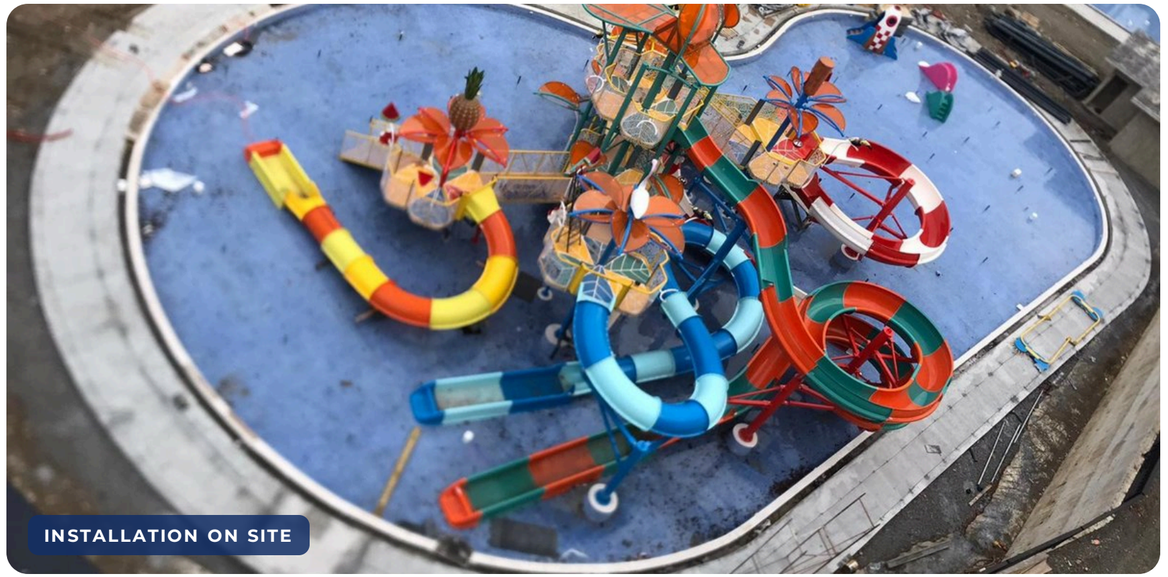

04

INSTALL

Installation, testing, commissioning and after-sales support.

FIBREGLASS PRODUCTION

INSTALLATION ON SITE
