ZERO-DEPTH WATER PLAY

Splash, Spray and Play.

Spray elements bring water play to zero-depth and shallow areas. Spray arches, tipping buckets, water cannons, spinning flowers and playful characters create a safe, colourful world where toddlers and older children play side by side.

Every feature is designed and manufactured in our own factory in Istanbul. Mix and match pieces from the collection or let us design a signature piece that becomes the icon of your pool.

WHY SPRAY ELEMENTS

Maximum Fun, Minimum Depth

01

Safe for all ages

Zero-depth or shallow water removes the risk of deep pools, so the youngest guests can play freely.

02

Low water use

Recirculating systems with filtration and treatment keep water consumption and running costs low.

03

Endless combinations

More than 30 features in different heights and colours that can be combined into any layout.

04

Photo-worthy icons

Signature pieces like the Giant Squid and Humpback give your venue a memorable landmark.

05

Built to last

Stainless and galvanised steel, fibreglass and UV-stable materials made for daily operation.

06

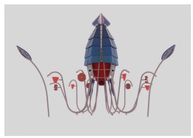

Turnkey delivery

Layout design, hydraulics, manufacturing, installation and support from a single partner.
